Kuntal Bhattacharyya

Dum Dum, Kolkata, West Bengal | +91 9007216627 | kuntal442001@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Web Developer and Python/Flask Developer with experience across full-stack web application development, WordPress/CMS engineering, and AI-powered application features. Skilled in building REST APIs, database-driven applications with SQLite/SQL/PostgreSQL, and custom WordPress solutions using Custom Post Types, Advanced Custom Fields, and custom plugins. Experienced in integrating AI/LLM APIs into web applications, implementing authentication and CRUD operations, and optimizing sites for SEO, performance, and responsive design.

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, HTML, CSS, SQL
Backend & APIs: Flask, REST API Development, Authentication, CRUD Operations, Web Security (CSRF Protection, Input Validation, Rate Limiting)
Frontend: React.js, Tailwind CSS, Responsive Design
AI Integration: AI/LLM API Integration, AI-Powered Application Features
CMS & E-commerce: WordPress, Elementor, WooCommerce, Custom Plugins, Custom Post Types (CPT), Advanced Custom Fields (ACF), Shopify, Divi, Beaver Builder
Database: SQLite, PostgreSQL, SQL Server, Data Visualization
Tools & Practices: Git, GitHub, SEO, Web Performance Optimization

PROFESSIONAL EXPERIENCE

Website Developer — *DigiBoomLabs* **Sep 2023 – Mar 2025**

- Developed and optimized WordPress and Shopify websites, improving site performance and load speed.
- Implemented SEO strategies to improve visibility and organic search performance.

Web Developer — *LeadsArk Edutech Private Limited* **Apr 2025 – Present**

- Develop Python/Flask-based backend solutions and REST APIs for web applications and business workflows.
- Work with database-driven applications using SQL/PostgreSQL and implement CRUD-based functionality.
- Implement authentication and role-based access
- Validate forms and inputs on server side to prevent bad data and common attacks like SQL injection and XSS.
- Implement rate limiting with Flask-Limiter on login and application endpoints to prevent brute-force attempts and spam.

PROJECTS

SafarLedger — Trip & Expense Management Platform *(Flask, PostgreSQL, Bootstrap)*[Live Url]

- Built SafarLedger, a full-stack Flask trip-management platform for managing trips, budgets, travelers, expenses, itineraries, and settlements.
- Implemented secure authentication and per-user data isolation using Flask-Login, Flask-SQLAlchemy, PostgreSQL, and Flask-Migrate.
- Developed intelligent expense splitting and settlement logic with traveler/group-level accounting, payment tracking, on-behalf payments, balances, and suggested transfers.
- Built itinerary management and customizable PDF Trip Report generation, including traveler costs, expense summaries, daily spending, payments, and settlements.
- Developed a responsive Bootstrap-based UI with complete CRUD workflows and real-time budget, spending, and per-traveler cost calculations.

BudgetBee — Personal Finance Tracker *(Python, Flask, SQLite)* [Live Url]

- Built a full-stack personal finance tracker with Flask and SQLite, implementing CRUD operations for expense tracking with filtering.
- Designed secure user authentication and session management, with CSRF protection, input validation, and rate limiting.
- Developed interactive pie and bar charts for financial data visualization and analytics, plus CSV data export; integrated AI/LLM APIs for spending insights.

SpinCare.in — Business Website *(WordPress, Elementor)* [Live Url]

- Developed and optimized the site using WordPress and Elementor with custom HTML, CSS, and JavaScript for interactivity.
- Focused on SEO, performance optimization, and responsive design for a fast, consistent cross-device experience.

Palini.in — E-commerce Website *(Shopify)* [Live Url]

- Built a mobile-friendly Shopify store with optimized product pages, streamlined checkout, and custom branding.

Spotify Clone — Music Player *(HTML, CSS, JavaScript)*

- Developed a responsive music player with seek bar, volume control, and dynamic folder-based song navigation using the fetch() API.

EDUCATION

B.Tech, Computer Science & Engineering — UEM Kolkata (UEMKolkata University) 2024 — CGPA: 7.55
Higher Secondary (Science) — Central Modern School (ISC) 2020 — 61.5%
Secondary — Central Modern School (ICSE) 2018 — 74.33%
